

2000 National Laboratory Catalysis Research Conference (NLCat 2000) Call for Papers

The dates for the 2000 National Laboratory Catalysis Conference (NLCat 2000) will be October 12-13, 2000 at Argonne National Laboratory. The format will be similar to the 1999 conference which was held in Albuquerque with 2 concurrent sessions and a poster session. Information will be posted on the DOE Catalysis Web Site at <http://www.catalysis.anl.gov/>. A listing of the papers presented at the 1999 conference is also at this site.

Persons wishing to present a paper or poster at NLCat 2000 must submit an abstract to the organizing committee. Abstracts will be considered in all areas of heterogeneous and homogeneous catalysis, including but not limited to subject areas relevant to the petroleum and chemical industries, environmental catalysis, photocatalysis, biocatalysis, and electrocatalysis. Oral presentations will be 30 minutes long (20 minutes of presentation and 10 minutes of discussion), and will be reserved for Technical Staff Members at DOE National Laboratories. Posters may be presented by any participant in the symposium. The poster layout will be provided to authors at the time of notification of abstract acceptance. Each participant may present at most a single oral and a single poster presentation. A participant may be an author on multiple abstracts provided he/she is not the presenter on more than one poster and/or oral presentation. Abstracts should be a maximum of 250 words not including the title and author information and no more than one page in length. The presenter's name should be underlined on the abstract and complete addresses should be provided for all authors. Abstracts will only be accepted in electronic form in Microsoft Word format. Abstracts must be received by Friday, August 4, 2000. Please indicate in the email whether the submission is for an oral or poster presentation.

Abstracts should be sent to:

Ms Laurie Carbaugh
Chemical Technology Division
Argonne National Laboratory
Argonne, IL 60439-4837
Phone: 630-252-4672
Carbaugh@cmt.anl.gov

Questions regarding submission of heterogeneous or homogeneous catalysis abstracts should be directed to the following people:

Heterogeneous Catalysis

Christopher L. Marshall
Chemical Technology
Division
Argonne National Laboratory
Argonne, IL 60439-4837
Phone: 630-252-4310
CLMarshall@anl.gov

-OR-

Nancy Jackson
Process Research Department
Sandia National Laboratory
Mail Stop 0710
Albuquerque, NM 87185-0710
Phone: 505-272-7619
NBJacks@sandia.gov

Homogeneous Catalysis

Jerome Rathke
Chemical Technology
Division
Argonne National Laboratory
Argonne, IL 60439-4837
Phone: 630-252-4549
Rathke@cmt.anl.gov

-OR-

Robert Klingler
Chemical Technology Division
Argonne National Laboratory
Argonne, IL 60439-4837
Phone: 630-252-9960
Klingler@cmt.anl.gov

Notification regarding acceptance of abstracts will be sent on Monday, August 18, 2000. All notifications will be made via email.
